V5.05.361 Build 250929 Release Highlights - For Vpro Series NVR

1. **Perimeter & Motion Analysis For 3rd party Cameras via ONVIF Protocol**
    Supports 4-channel intelligent perimeter protection with 2MP video streams or full-channel 4MP Motion 2.0 analysis. *Note: This feature is mutually exclusive with AcuSeek functionality.*

2. **Improved search accuracy** - particularly for **vehicle attributes** (color, brand, etc.).
    We've upgraded to a more powerful text-based search model, which delivers significantly better and more accurate results.

3. **New support** for **negative-condition queries**, such as:
    Person without a hard hat
    Person not wearing a mask
    Cyclist without a helmet

4. **Baseline Firmware with AU Marketing Requirements**
    With the baseline R&D team engaged, accelerating AU customized requirements landing.
